

CI/OA

6 DEC 1955

Deputy Director of Security (Investigations and Support)

JG-1976  
#46004

1. Reference is made to covert security clearance granted the Subject on 3 April 1954 for use in filling out certain identity documents in a foreign handwriting. Reference is also made to the covert security clearance granted the Subject on 4 November 1952 for use in the United States under Project ARMOR. Further reference is made to the request which ☐ SR/2 made of this office to establish a means of immediate contact for the Subject during his stay in New York City prior to his departure overseas.
2. In view of the foregoing, it appears that no clearance was ever granted the Subject which would specifically cover the use now being made of the Subject.
3. Your attention is invited to paragraph four of each covert security approval granted the Subject which indicates that a covert security approval does not constitute complete compliance with CIA Regulation 10-9. This paragraph also points out that should a new use be contemplated for the Subject, a request to cover Subject's change should be submitted to this office.
4. It is therefore requested that the current use being made of the Subject by SR Division be examined in order that it may be determined whether or not a clearance has been issued for that use. In the event that there is no such clearance, it is suggested that appropriate clearance be requested as soon as it is feasible.
